Utica, New York 13503

Statement of Ownership, Management and Circulation required by the Act of August 12, 1970; Section 3685, Title 39, United States Code; of

THE AMERICAN ZOOLOGIST

Published quarterly (February, May, August, November) by the American Society of Zoologists, Business Office, Box 2739, California Lutheran College, Thousand Oaks, California 91360. Managing Editor; E. Peter Volpe, Department of Biology, Tulane University, New Orleans, La. 70118.

Owned by the American Society of Zoologists (a non-profit organization). Known bond-holders, mortgagees, and other security holders owning or holding 1 per cent or more of total amount of bonds, mortgages, and other securities: None.

The purpose, function, and non-profit status of this organization and the exempt status for Federal income tax purposes have not changed during the preceding 12 months.

Total no. copies printed, average no. copies each issue during preceding 12 months: 6350, single issue nearest to filing date: 6700. Paid circulation (a) sales through dealers and carriers, street vendors and counter sales, average no. copies each issue during preceding 12 months: 0; single issue nearest to filing date: 0. (b) Mail subscriptions, average no. copies each issue during preceding 12 months: 5088; single issue nearest to filing date: 5129. Free distribution, average no. copies each issue during preceding 12 months: 10; single issue nearest to filing date: 10. Total no. of copies distributed, average no. copies each issue during preceding 12 months: 5098; single issue nearest to filing date: 5139.

E. Peter Volpe, *Managing Editor*

CONTENTS

No. 1 WINTER 1976

ENDOCRINE ROLE OF THE PINEAL GLAND

LeGrande C. Ellis	Introduction to the symposium: The endocrine role of the pineal	3
Ietskina Ebels	Isolation of avian and mammalian pineal indoles and antigonadotropic factors	5
Bryant Benson, Mary Jane Matthews, and Victor J. Hruby	Characterization and effects of a bovine pineal antigonadotropic peptide	17
Mary K. Vaughan, George M. Vaughan, David E. Blask, Marguerite P. Barnett, and Russel J. Reiter	Arginine vasotocin: Structure-activity relationships and influence on gonadal growth and function	25
Charles L. Ralph	Correlations of melatonin content in pineal gland, blood, and brain of some birds and mammals	35
Michael Menaker and Natille Zimmerman	Role of the pineal in the circadian system of birds	45
Sue Binkley	Comparative biochemistry of the pineal glands of birds and mammals	57
LeGrande C. Ellis	Peripheral and CNS effects of the pineal gland: Target enzymes common to tissues and species	67
Ronald L. Urry, Kathryn A. Dougherty, John L. Frehn, and LeGrande C. Ellis	Factors other than light affecting the pineal gland: Hypophysectomy, testosterone, dihydrotestosterone, estradiol, cryptorchidism, and stress	79
Russel J. Reiter, Andrew J. Lukaszyk, Mary K. Vaughan, and David E. Blask	New horizons of pineal research	93

No. 2 SPRING 1976

INVERTEBRATE NEUROSECRETION

Lynn M. Riddiford	Introduction to the symposium: Invertebrate neurosecretion	105

DENIS G. BASKIN	Neurosecretion and the endocrinology of nereid polychaetes	107
E. P. MARKS AND G. M. HOLMAN	Insect neurosecretion *in vitro*	125
S. H. P. MADDRELL	Functional design of the neurosecretory system controlling diuresis in *Rhodnius prolixus*	131
FRED I. KAMEMOTO	Neuroendocrinology of osmoregulation in decapod Crustacea	141
L. H. KLEINHOLZ	Crustacean neurosecretory hormones and physiological specificity	151
S. ARCH	Neuroendocrine regulation of egg laying in *Aplysia californica*	167

Abstracts (ASZ) 177

No. 3 SUMMER 1976

SPIRALIAN DEVELOPMENT

Overview

DONALD P. COSTELLO AND CATHERINE HENLEY	Spiralian development: A perspective	277

Section I–Gametogenesis and Fertilization

WINSTON A. ANDERSON AND PAUL PERSONNE	The molluscan spermatozoon: Dynamic aspects of its structure and function	293
ERWIN HUEBNER AND EVERETT ANDERSON	Comparative spiralian oogenesis—structural aspects: An overview	315
NIRMAL K. DAS	Cytochemical and biochemical analysis of development of *Urechis* oocytes	345
RONALD R. COWDEN	Cytochemistry of oogenesis and early embryonic development	363
FRANK J. LONGO	Ultrastructural aspects of fertilization in spiralian eggs	375

Section II–Experimental Cytoembryology

CHR. P. RAVEN	Morphogenetic analysis of spiralian development	395
DANIEL L. LUCHTEL	An ultrastructural study of the egg and early	

	cleavage stages of *Lymnaea stagnalis*, a pulmonate mollusc	405
JOHN M. ARNOLD, AND LOIS D. WILLIAMS-ARNOLD	The egg cortex problem as seen through the squid eye	421
A. C. CLEMENT	Cell determination and organogenesis in molluscan development: A reappraisal based on deletion experiment in *Ilyanassa*	447
JAMES N. CATHER, NICO H. VERDONK, AND M. RENÉ DOHMEN	Role of the vegetal body in the regulation of development in *Bithynia tentaculata* (Prosobranchia, Gastropoda)	455
LIONEL I. REBHUN	Calcium, sulfhydryls and the mitotic apparatus	469
	Section III–Biochemistry of Development	
J. R. COLLIER	Nucleic acid chemistry of the *Ilyanassa* embryo.	483
GERALD M. KIDDER	RNA synthesis and the ribosomal cistrons in early molluscan development	501
KIRK MCLEAN	Some aspects of RNA synthesis in oyster development	521
RUDOLF A. RAFF, KENNETH M. NEWROCK, RANDY D. SECRIST, AND F. RUDOLF TURNER	Regulation of protein synthesis in embryos of *Ilyanassa obsoleta*	529
JOHN B. MORRILL, ROBERT W. RUBIN, AND MITCHELL GRANDI	Protein synthesis and differentiation during pulmonate development	547
	Section IV–Larval Development and Metamorphosis	
MARY E. RICE	Larval development and metamorphosis in Sipuncula	563
DALE B. BONAR	Molluscan metamorphosis: A study in tissue transformation	573
	Section V–Regeneration and Adult Growth	
TIMOTHY P. FITZHARRIS	Regeneration in sabellid annelids	593
GEORGE R. CLARK II	Shell growth in the marine environment: Approaches to the problem of marginal calcification	617

CONTENTS

No. 4 FALL 1976

LIPIDS IN ANIMAL LIFE HISTORIES

W. KENNETH DERICKSON	Introduction to the symposium: Lipids in animal life histories	629

William V. Allen	Biochemical aspects of lipid storage and utilization in animals	631
Albert H. Meier and John T. Burns	Circadian hormone rhythms in lipid regulation	649
Rachel Schemmel	Physiological considerations of lipid storage and utilization	661
Charles R. Blem	Patterns of lipid storage and utilization in birds	671
Nicholas Mrosovsky	Lipid programmes and life strategies in hibernators	685
Ruth A. Young	Fat, energy and mamalian survival	699
W. Kenneth Derickson	Lipid storage and utilization in reptiles	711
Lloyd C. Fitzpatrick	Life history patterns of storage and utilization of lipids for energy in amphibians	725
Roger G. H. Downer and J. R. Matthews	Patterns of lipid distribution and utilisation in insects	733
John M. Lawrence	Patterns of lipid storage in post-metamorphic marine invertebrates	747
Christopher C. Smith	When and how much to reproduce: The trade-off between power and efficiency	763
Eric R. Pianka	Natural selection of optimal reproductive tactics	775

INDEX TO VOLUME 16

This index covers only the major papers, their authors, and principal headings. It does not include the abstracts. For the latter there are separate indices to authors on pages 263-266 and 273. Minutes of business meetings, officers, and reports are entered only under *American Society of Zoologists*.

Abstracts, see note above.
  index of authors, annual meeting, New Orleans, La., 263-266 and 273.
  of annual meeting, New Orleans, La., 177-261 and 267-271.
ALLEN, WILLIAM V. Biochemical aspects of lipid storage and utilization in animals, 631-647.
American Society of Zoologists,
  Committees, xv
  Constitution and bylaws, xvi-xx
  Divisional officers, xvi
  Financial statement, xxiii
  Minutes of annual business meeting, xx-xxii
  Officers for 1976, xv
American Zoologist,
  Change of managing editors, xxiv-xxv
  Directions for authors, cover 2
  Editorial board, cover 2
  Statement of ownership,
  Subscriptions, cover 2
ANDERSON, EVERETT, see HUEBNER, ERWIN.
ANDERSON, WINSTON, AND PAUL PERSONNE, The molluscan spermatozoon: Dynamic aspects of its structure and function, 293-313.
Animal life histories, lipids in, 627-784.
ARCH, S., Neuroendocrine regulation of egg laying in *Aplysia californica*, 167-175.
ARNOLD, JOHN M. AND LOIS D. WILLIAMS-ARNOLD, The egg cortex problem as seen through the squid eye, 421-446.
BARNETT, MARGUERITE P., see VAUGHAN, MARY K.
BASKIN, DENIS G., Neurosecretion and the endocrinology of nereid polychaetes, 107-124.
BENSON, BRYANT, MARY JANE MATTHEWS, AND VICTOR J. HRUBY, Characterization and effects of a bovine pineal antigonadotropic peptide, 17-24.
BINKLEY, SUE, Comparative biochemistry of the pineal glands of birds and mammals, 57-65.
BLASK, DAVID E., see REITER, RUSSEL J. and VAUGHAN, MARY K.
BLEM, CHARLES R., Patterns of lipid storage and utilization in birds, 671-684.
BONAR, DALE B., Molluscan metamorphosis: A study in tissue transformation, 573-591.
BURNS, JOHN T., see MEIER, ALBERT H.
CATHER, JAMES N., NICO H. VERDONK, AND M. RENÉ DOHMEN, Role of the vegetal body in the regulation of development in *Bithynia tentaculata* (Prosobranchia, Gastropoda), 455-468.
CLARK, GEORGE R., II, Shell growth in the marine environment: Approaches to the problem of marginal calcification, 617-626.
CLEMENT, A. C., Cell determination and organogenesis in molluscan development: A reappraisal based on deletion experiments in *Ilyanassa*, 447-453.
COLLIER, R. J., Nucleic acid chemistry of the *Ilyanassa* embryo, 483-500.
COSTELLO, DONALD P. AND CATHERINE HENLEY, Spiralian development: A perspective, 277-291.
COWDEN, RONALD R., Cytochemistry of oogenesis and early embryonic development, 363-374.
DAS, NIRMAL K., Cytochemical and biochemical analysis of development of *Urechis* oocytes, 345-362.
DERICKSON, W. KENNETH, Introduction to the symposium: Lipids in animal life histories, 629-630.
